

HCBS Provider Readiness Tool – Non Residential Settings - Revised: March 20, 2017

Note: This HCBS provider readiness tool is provided for informational purposes only, and is not intended to be the sole source of guidance in achieving compliance with the HCBS Final Rule.

INTRODUCTION

The purpose of this tool is to assist service providers in assessing, and potentially remediating, settings in which services are provided - to achieve compliance. The over-arching principle for compliance is to ensure fidelity with the intent that individuals receiving Medicaid-funded HCBS have the opportunity to receive these services in a manner that protects individual choice and promotes community integration.

Any non-residential setting where individuals receive home and community based services must have the following 5 qualities:

1. Integrated in and supports full access to the community.

Intent:

- To assure the setting where services are being provided will support full access to the community

Examples:

- Prohibited: *A business located in the same building or on the same campus as an institutional treatment center.*
- Compliant: *A location in an industrial park, or commercial district could be considered integrated if access to the community could be demonstrated through examples listed below.*
- Exemplary: *All services and supports take place in settings where individuals have full integration in the community and with the same degree of access as individuals who are not HCBS beneficiaries / individuals without disabilities.*

Documentation to demonstrate compliance:

- *The individual's person-centered plan*
- *Progress notes*
- *Organizational level documentation*
 - *Mission and value statements*
 - *Policies and procedures*
 - *Ethical Codes of Conduct*
 - *Strategic plans noting commitment to community inclusion.*

2. Is selected by the individual from among setting options including non-disability specific settings.

Intent:

- To assure availability of a full array of service settings from which individual beneficiaries may choose.

HCBS Provider Readiness Tool – Non Residential Settings - Revised: March 20, 2017

Note: This HCBS provider readiness tool is provided for informational purposes only, and is not intended to be the sole source of guidance in achieving compliance with the HCBS Final Rule.

Examples:

- Prohibited: *Limiting the individual beneficiary's choices to disability specific settings.*
- Compliant: *Disability specific settings may be included as choices, as long as non-disability specific settings are also presented as options during the person-centered planning process.*
- Exemplary: *Individuals choose services and supports taking place in settings where individuals have full integration in the community and with the same degree of access as individuals who are not HCBS beneficiaries / individuals without disabilities.*

Documentation to demonstrate compliance:

- *The menu of options available for the individual's person-centered plan*
- *Organizational level documentation*
 - *Mission and value statements*
 - *Policies and procedures*
 - *Ethical Codes of Conduct*
 - *Strategic plans noting commitment to community inclusion.*

3. Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.

Intent:

- To protect the individual beneficiary's rights as outlined above while receiving services.

Examples:

- Prohibited: *Violating the individual privacy, providing services in a disrespectful manner, any type of coercion or restraint.*
- Compliant: *Restricted access to areas that may compromise health or safety must be the result of a Person Centered Planning meeting with the individual's consent.*
- Exemplary: *Individuals choose services and supports taking place in settings where individuals experience appropriate levels of privacy, dignity and respect, and conditions that might limit these qualities are eliminated.*

Documentation to demonstrate compliance:

- *The individual's person-centered plan, progress notes, or interviews with beneficiary and provider staff substantiate protection of these rights*
- *Organizational level documentation*
 - *Mission and value statements*
 - *Policies and procedures*
 - *Ethical Codes of Conduct*

HCBS Provider Readiness Tool – Non Residential Settings - Revised: March 20, 2017

Note: This HCBS provider readiness tool is provided for informational purposes only, and is not intended to be the sole source of guidance in achieving compliance with the HCBS Final Rule.

- *Strategic plans noting commitment to community inclusion.*

4. Optimizes individual initiative, autonomy, and independence in making life choices, including, but not limited to, daily activities, physical environment, and with whom to interact.

Intent:

- To promote optimal levels of self-determination, and independent choice of activities, settings, and the individuals with whom the beneficiary will interact.

Examples:

- Prohibited: *Restricting the choices outlined above.*
- Compliant: *Input from those individuals identified in the beneficiary's circle of support, including participants in their person-centered plan.*
- Exemplary: *Individuals choose services and supports with maximum independence and autonomy.*

Documentation to demonstrate compliance:

- *The individual's person-centered plan, progress notes, or interviews with beneficiary and provider staff substantiate optimal levels of autonomy and independence.*
- *Organizational level documentation*
 - *Mission and value statements*
 - *Policies and procedures*
 - *Ethical Codes of Conduct*
 - *Strategic plans noting commitment to community inclusion.*

5. Facilitates individual choice regarding services and supports, and who provides them.

Intent:

- To promote optimal levels of self-determination, and independent choice from among a full array of service options and providers.

Examples:

- Prohibited: *Restricting the choices outlined above.*
- Compliant: *Input from those individuals identified in their circle of support, including participants in the beneficiary's person-centered plan.*
- Exemplary: *Individuals choose services and supports with maximum independence and autonomy.*

HCBS Provider Readiness Tool – Non Residential Settings - Revised: March 20, 2017

Note: This HCBS provider readiness tool is provided for informational purposes only, and is not intended to be the sole source of guidance in achieving compliance with the HCBS Final Rule.

Documentation to demonstrate compliance:

- *The individual's person-centered plan, progress notes, or interviews with beneficiary and provider staff substantiate a full array of service and support options, chosen with optimal levels of autonomy and independence.*
- *Organizational level documentation*
 - *Mission and value statements*
 - *Policies and procedures*
 - *Ethical Codes of Conduct*
 - *Strategic plans noting commitment to community inclusion.*

HCBS Provider Readiness Tool – Non Residential Settings - Revised: March 20, 2017

Note: This HCBS provider readiness tool is provided for informational purposes only, and is not intended to be the sole source of guidance in achieving compliance with the HCBS Final Rule.

PREFACE

If a service is not being provided in a setting that is consistent with the five qualities outlined in the Introduction, there must be a modification in the individual's person-centered plan that is supported by a specific assessed health and/or safety related need. Requirements for such plan modifications have been outlined by CMS.

Documentation in the person-centered service plan of modifications to achieve compliance include:

- Specific individualized assessed health and/or safety related need;
- Prior interventions and supports including less intrusive methods;
- Description of condition proportionate to assessed need;
- Ongoing data measuring effectiveness of modification;
- Established time limits for periodic review of modifications;
- Individual's informed consent;
- Assurance that interventions and supports will not cause harm.

Additional information regarding the HCBS Final Rule, including the Statewide Transition Plan and survey documents used to assess compliance, is available through the Michigan Department of Health and Human Services website:

http://www.michigan.gov/mdhhs/0,5885,7-339-71547_2943-334724--,00.html
