PROCEDURES

NorthCare Network recognizes that a wide range of personal issues can ultimately have a negative impact on an employee's job performance. Examples of personal issues include physical illness, financial, marital, family distress, substance use and/or abuse disorders, mental illness, legal problems, gambling, etc. NorthCare Network also acknowledges that many problems can be successfully treated if there is early intervention.

This procedure assures confidential access to referrals for assistance to help resolve such problems. At times, a recommendation to seek a referral may be initiated by management staff.

The use of Paid Time Off (PTO) may be granted when appropriate.

NorthCare Network encourages any employee with an assistance need to contact appropriate resources. Due to professional and ethical boundaries, an employee should not be seeking “informal” services during work time.

An employee may contact the EAP listed below, or if they need assistance, they may contact the Human Resources Coordinator.
