## **PROCEDURES**

- A. Personnel will be required to sign a statement attesting that they understand their responsibility to preserve confidentiality of all PHI and any other information and communication involving individuals served.
- B. When using or disclosing protected health information or when requesting protected health information from another covered entity or business associate, a covered entity or business associate must make reasonable efforts to limit protected health information to the minimum necessary to accomplish the intended purpose of the use, disclosure, or request. All individuals needing access to the designated medical record and/or PHI must do so only in the course of assigned duties and responsibilities. These include reasons for payment, treatment, coordination of care

activities, reporting, claims/encounters, and auditing. All individuals must follow the standards of minimum necessary and need to know for any and all access to use or disclosure of protected health information.

C. Minimum necessary does not apply to:

- 1) Disclosures to or requests by a health care provider for treatment. **NOTE:** It is recommended to verify exactly what the provider is asking for before sending an “entire” record.
- 2) Uses or disclosures made to the individual.
- 3) Uses or disclosures made pursuant to an authorization under 45 CFR 164.508.
- 4) Disclosures made to the Secretary regarding compliance and investigations under 45 CFR Part 160.
- 5) Uses or disclosures that are required by law, as described by 45 CFR 164.512(a); and from a business associate that is a sub-contractor.
- 6) Uses or disclosures that are required for compliance with applicable requirements of 45 CFR.

D. Individuals are required to maintain privacy and confidentiality of all PHI obtained in the course of carrying out assigned duties and responsibilities. The requirement to maintain privacy and confidentiality of this information also extends beyond the term of one’s employment/appointment.

E. Personnel are required to contact the CEO and/or the Privacy Officer when responding to court orders, subpoenas, and search or arrest warrants and in the event Personnel have questions regarding the use or disclosure of PHI.

F. Accounting of Disclosures – Individuals have a right to receive an accounting of disclosures of PHI made by the PIHP/Network Provider in the six (6) years prior to the date on which the accounting is requested, with some exceptions. [45 CFR 164.528] NorthCare’s process is to log all disclosures made on the disclosure log to ensure all required disclosures are included.
