PROCEDURES

Employees may be hired by NorthCare Network with a limited licensure under the State of Michigan with the expectation that full licensure will be obtained. This understanding will be written in the job offer letter and will include language on a change in pay scale at the time of receipt of full licensure.

During the period that the employee holds a limited license, NorthCare Network is committed to providing the employee the clinical supervision that is required to obtain full licensure. It is the employee's responsibility to assure that the supervisor is providing the required time and that the employee is receiving the level of clinical guidance they require. Should the employee feel that either of these is not being adequately received, the employee should notify the Chief Executive Officer and/or the

HR Specialist. It is expected that full licensure will be obtained within 4 years from the start of employment with NorthCare Network in a limited license capacity.
